Accommodation
Accommodation in Dublin can be difficult. It is highly recommended that you connect with students from your college who have been here before. The Erasmus coordinator at your home college should be able to help with connecting you with them. Otherwise, please find information on accommodation here: https://iadt.ie/for-students/accommodation/. The student union look after this page on the website and update the Facebook page regularly. Please sign up for Student pad on the accommodation page. Please use the word "erasmus" for your title and the Student Union will approve your profile.

VERY IMPORTANT – please do not prepay for accommodation if you feel there is any possibility of fraud, please email and we will try and verify the accommodation for you.

Fees
As Erasmus students there are no fees

OLA – Learning Agreements
Please note for Learning agreements please select your course component code (eg DL832 animation) and 30 credits if you are coming for Semester One only or 60 Credits for the whole academic year. We update our module codes every year and it will be quicker for you and easier for us to change when and if the course codes change.

The Student Union (SU) is very important to Irish colleges, our SU Instagram link is here:
